

Changes made from previous deliverables:

1. Change the relation of Owners and Restaurants to one to many. Explanation: from TA suggestion.
2. Change the Owner attributes from (ownerID, oname, restaurant phone number) to (ownerID, oname). Explanation: change the Owner-Restaurant relationship from one to many to many to many.
3. Change member birthday attribute to email. Explanation: make more sense to know about customers' email in order to do advertisement.
4. Combine member date and time attribute to reservationdate attribute. Explanation: do not need to store excessive information.
5. Add functionality: member can update email.
